

Cookware Infomercial

+ \$50,000/mo CF
if you roll 4 or higher
on one die, or else \$0 CF.

\$225,000 Investment

Fast Track

This Game was created in 1996,
the Chinese year of the Rat.

\$150,000 Investment

**Private
Fishing Cabin
on a Montana Lake**

Fish from the dock
of this remote cabin.
Enjoy 6 months of solitude.
Use of float plane included.

\$100,000

Park N After You
Tear down abandoned warehouse, build new recreational park. Donate police sub-station for park safety.

\$225,000

Pay Check

When passing over or landing on Pay Check, get your Monthly Cash Flow from the Bank. If this amount is negative (minus), pay it to the Bank.

If you forget to ask for your Pay Check, it is lost.

_____	_____	_____
_____	_____	_____
_____	_____	_____

Your CASHFLOW Day Income is equal to your Beginning CASHFLOW Day Income plus the Cash Flow from every Business you buy on the Fast Track

> CASH FLOW PATTERNS

My Rich Dad said...

**"My banker has never asked me for my report card.
He asks me for my financial statement."**

Income	
Expenses	
Assets	Liabilities

Rich Dad said, "The riskiest investor of all is a person who is out of control of his or her personal financial statement. These are people who have nothing but liabilities that they think are assets and as much in expenses as they have in income and whose only source of income is their labor."

Understanding your Financial Statement is the foundation for taking control of your personal finances. Rich Dad believes the relationship between the Income Statement and the Balance Sheet was everything. What is the first step to financial freedom? Take control of your Financial Statement.

Cash Flow Pattern of the Poor (or a young person still living at home): The poor spend every penny they make and they have no assets and only liabilities. The cash flow is limited to income and expenses and the cash flow pattern of the poor reflects income from a job that is used to pay expenses like rent, food, clothes, transportation and taxes.

Cash Flow Pattern of the Middle Class: Individuals in the middle class accumulated more debt as they become more successful. A pay raise qualifies them to borrow more money from the bank so they can buy personal items like bigger cars, vacation homes, boats and motor homes.

Their wage income comes in and is spent on current expenses and then on paying off this personal debt. As their income increases, so does their personal debt. This is what we call the Rat Race.

Cash Flow Pattern of the Rich: The rich have their assets work for them. They have gained control over their expenses and focus on acquiring or building assets. Their businesses pay most of their expenses and they have few, if any, personal liabilities.

An individual's cash flow pattern may show a combination of these three types. Which pattern does your financial statement reflect? What story does your financial statement tell? Are you in control of your expenses?
